

Halcyon Ledger, page 1 of 25

The ledger of Halcyon keeps one entry for every crossing of the Verrant Strait, and the clerks who keep it are sworn to enter nothing they have not seen with their own eyes. The entries run in three columns: the hour, the vessel, and the name of whoever signed for the cargo. Where a signature is missing the clerk writes a single stroke, and a stroke is worth an inquiry.

Marisel Vane kept the ledger for eleven years and never once left a stroke unexplained. Her successor left nine in a single season, which is how the audit began and how this page came to be written at all.

Halcyon Ledger, page 2 of 25

The ledger of Halcyon keeps one entry for every crossing of the Verrant Strait, and the clerks who keep it are sworn to enter nothing they have not seen with their own eyes. The entries run in three columns: the hour, the vessel, and the name of whoever signed for the cargo. Where a signature is missing the clerk writes a single stroke, and a stroke is worth an inquiry.

Marisel Vane kept the ledger for eleven years and never once left a stroke unexplained. Her successor left nine in a single season, which is how the audit began and how this page came to be written at all.

Halcyon Ledger, page 3 of 25

The ledger of Halcyon keeps one entry for every crossing of the Verrant Strait, and the clerks who keep it are sworn to enter nothing they have not seen with their own eyes. The entries run in three columns: the hour, the vessel, and the name of whoever signed for the cargo. Where a signature is missing the clerk writes a single stroke, and a stroke is worth an inquiry.

Marisel Vane kept the ledger for eleven years and never once left a stroke unexplained. Her successor left nine in a single season, which is how the audit began and how this page came to be written at all.

Halcyon Ledger, page 4 of 25

The ledger of Halcyon keeps one entry for every crossing of the Verrant Strait, and the clerks who keep it are sworn to enter nothing they have not seen with their own eyes. The entries run in three columns: the hour, the vessel, and the name of whoever signed for the cargo. Where a signature is missing the clerk writes a single stroke, and a stroke is worth an inquiry.
